To whom it may concern:

I have no problem in recommending Metnurse for anyone who has special care needs for a loved one at their home. My son has many medical issues from a brain injury in 1994 leaving him a quadriplegic, complex, complicated, medically fragile and requiring around the clock care.

I had the opportunity to choose Metnurse for my son's care. We have developed an honest and professional relationship with Metnurse Inc. and have the utmost respect for their efforts.

Metnurse Inc. was our provider for a period of 18 months in which they provided CNAs and nurses to meet Ronnie' s medical needs following his Plan of Care and Goals. The agency RN who does the supervisory visits understands my son's condition and needs and always made sure the staff were aware of all aspects of his care. He is a medically fragile individual involving multiple systems with many medical needs to maintain health.

I would love to have Metnurse Inc. back providing Ronnie's care for the reasons stated. Ronnie has existing CNAs that he would like to continue caring for him as they have a good report and have been with him for a while and have proven to be reliable, caring and knowledgeable.

Sincerely,
